Address signs and smoke alarms available at Lake Stevens Fire

JOURNAL STAFF

As a result of cost saving purchases, Lake Stevens Fire is able to use funding from their Assistance to Firefighters Federal Grant towards address signs and smoke alarms. Lake Stevens Fire is offering reflective address signs and photoelectric smoke alarms for Lake Stevens families in need.

These items are available free of charge

and firefighters will help install them if needed. There is a limited number of each item available and they are offered on a first come, first serve basis.

Feel free to call Alison Caton at 425-334-3034 for more information. Remember to test your smoke alarms and take a moment to be certain your house address is easily seen from the road in case of an emergency.
